Owning a home that matches your lifestyle

Owning a home that matches your lifestyle and goals is important. Whether you are looking for a new home, building, renovating or investing in a residential property, Medfin has the expertise to help.

Medfin removes the hurdles placed in front of you by traditional finance companies. With our home buyers finance it's possible to borrow up to 95% of the purchase price of a property without requiring additional security.

Because Medfin specialises in healthcare finance we understand how your income changes during your student years and throughout the opening and growth stages of your practice. The good news is that we take your earning potential into account when providing home loan finance.

Flexible payment options

If you're concerned about the cost of home loan repayments why not explore the benefits of Medfin's fixed and variable interest rate options? Sometimes finance options are presented in a way that's difficult to understand. That's why Medfin has taken the jargon out of finance and placed at your service a Finance Specialist who is available to discuss in Plain English the different ways to custom design a repayment structure to suit your budget.

Simple and fast

Medfin knows that your time is important so our experienced Finance Specialists come to you, simplify the loan process and help you to acquire your new home or investment property quickly and easily.
